PLASTIC SPEED BUMPS

SUPERIOR STRENGTH AND DURABILITY AT A FRACTION OF THE COST OF ASPHALT SPEED BUMPS

VIRTUALLY INDESTRUCTABLE

Manufactured from Recycled Plastics

**CHEMICAL &
WEATHER RESISTANT**

- Solid Plastic
- Easy Installation
- Maintenance Free
- Light Weight - Yet Stable
- Chemical/Weather Resistant
- 100% Recycled Plastic

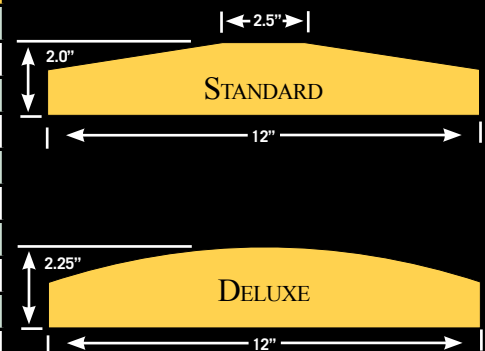

**LIFE TIME
WARRANTY**

An Environmentally Conscious Product

Our quality product is manufactured from 100% *post-consumer*, post-industrial recycled plastics. By using our product, you will help keep discarded containers and other plastics out of the environmental waste stream.

Include installation instructions and hardware. All dimensions are nominal - allow for up to 6% mold shrinkage.

FUGITIVE FADING MARKING PAINT

Fades with UV exposure.
Paint progressively fades from a vivid fluorescent to a clear film in 14 days. Ideal wherever appearance matters. Minimizes the lasting visual effect of construction markings. Designed to adhere to most surfaces, including asphalt, concrete, gravel, soil, grass, wood, plastic and steel. Lead-free, nonclogging aerosol can empties completely. 20-oz. can holds a net 15 oz. of paint.

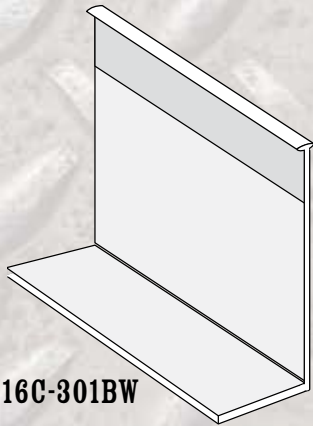

Fluorescent Colors:
Yellow - H91556FLY
Orange - H91556FLOR
Pink - H91556FLP
Red - H91556FLR

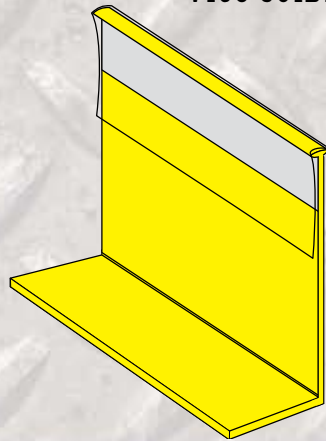

Note: Must be exposed to sunlight for fading effect to activate. Fade time may be affected if not exposed to full sunlight.

Compliance: VOC compliant; no ozone-depleting substances. Free of CA Prop 65 substances.

MARKER SPECIFICATIONS -

MATERIAL:

- Extrusion: Polyurethane, 80 Shore A
- Reflective Film: Acrylic, Metalized Adhesively Backed
- Cover: PVC, Flexible, Clear
- Staple: Galvanized High-Carbon Steel

SIZE: 4"W (10.16 cm) X 2"H (5.08 cm) X 1"D (2.54 cm)
Weight: Standard Package of 400 units = 31 lbs. (appr.)

REFLECTIVE AREA: 2 sq. inches in each reflective face.

SPECIFIC INTENSITY: Reflective Film shall have a minimum value of 1200 candle power per footcandle per square foot at 1/10° observation angle and 0° entrance angle.

**STIMSONITE®
CHIP SEAL/TEMPORARY
OVERLAY MARKER**

V16C-301BW

V16C-301BY

**No OTHER BRAND EXCEEDS PER SQUARE INCH
REFLECTIVE BRIGHTNESS**

BRILLIANT REFLECTIVITY AT NIGHT - A full 2 square inches of High Performance Sheeting to provide nighttime guidance.

CLEAR LANE DELINEATION BY DAY - Bright Yellow and White markers provide positive lane guidance without tape or paint.

FACTORY INSTALLED ADHESIVE - Allows for easy and time saving placement of markers. Minimizes your worker's time on the road.

EASY INSTALLATION INSTRUCTIONS:

Pavement should be clean and dry.
 Peel release paper from marker.
 Place marker into location and set with foot pressure.
 To remove the model 300, if desired simply pull off or scoop up with a shovel.

GLASS SPHERES
For Reflectorizing
Traffic Paint Lines

Specifications available pursuant to State, County and City requirements. Also for F.A.A. airport extra bright reflectance.

Engineered optically to be a retro-reflective bright mirror when deposited on fresh traffic pavement paint.

Glass Spheres are packaged and sold in 50 lb. bags. Prices can be quoted either FOB Berkeley or your destination based on weight and specifications. Just call our Berkeley sales office and describe your needed specifications, the quantity you wish to order, and destination point, and we'll provide you a delivered cost.

Our Berkeley warehouse carries a reasonable inventory for immediate shipment.

V21C-GS-50

Bead dispensers, stripers and top quality water based traffic paint are also available.
